

To Whom It May Concern

If you're considering listing your house for sale with a realtor, we recommend Susan Lancaster and her Team.

It was a fantastic experience work with Susan and her team to sell our house in Mississauga, Susan and her team handled everything efficiently and professionally.

She did her best to make the transaction proceed as smoothly as possible.

There is no doubt that Susan diligent efforts and professionalism were responsible for obtaining an attractive offer in less than 15 days after taking on the listing.

We felt that Susan negotiated 100% on our side, and represented our interests before, during and after the closing.

She always showed passion and appreciation for her job, we could see that she was really enjoying selling our house and this is extremely important, because we believe that someone that works solely to make money is often incapable of listening to your needs.

The effort, energy and commitment that Lancaster's team provided went far beyond our expectations.

We could never have believed that working with a real estate agent could be so wonderful!

Sincerely,

Solange and Roberto Camargo

Mississauga,

June 2011.
